In Re: WERF-LP, Gainesville, FL
Florida Educational Broadcasting, Inc.
Facility ID #134753
BLL-20031202AAA

Mr. Honeycutt:

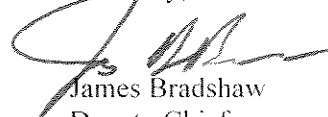

This letter refers to the above-captioned license application to cover construction permit BNPL-20010615APY.

An engineering review of the application reveals that condition #2 on the construction permit has not been satisfied. This condition required FEBI to conduct a partial proof of performance, as defined in Section 73.154(a), for WRUF(AM), Gainesville, FL, prior to construction of the tower and subsequent to the installation of all appurtenances, to establish that the AM array had not been adversely affected. The results were required to be submitted prior to or simultaneously with the filing of the license application. The license application fails to address this condition. Accordingly, it is requested that a partial proof of performance for WEAM(AM) be submitted as an amendment to the license application.

Furthermore, during a phone conversation on October 27, 2005, you indicated that WERF-LP had been constructed at different heights than those authorized by the underlying construction permit. You further indicated that a modification application would be filed on FCC Form 318 by mid-November, 2005. As of the date of this letter, no such application has been filed. Therefore, FEBI must immediately file Form 318 specifying the correct height and location from which it is currently operating.

Further action on the subject application will be withheld for a period of fifteen (15) days from the date of this letter to provide an opportunity to submit the requested information. Extensions are not contemplated. Failure to respond within this time period will result in the **revocation of program test authority** pursuant to 47 C.F.R. § 73.1620(b) and the dismissal of the application for failure to prosecute pursuant to 47 C.F.R. § 73.3568. Please note that amendments must be filed in the same manner as the original application.

Sincerely,

James Bradshaw
Deputy Chief
